A MESSAGE FROM UNITED WAY

On behalf of the United Way of Jefferson & North Walworth Counties, I would like to say THANK YOU to our donors and supporters for allowing our organization to experience another year of growth and high level of support to our communities. Under our 2017 Campaign, we made an “Investment for All” by allocating a total of \$239,024 to LOCAL organizations, programs and projects that support our mission *to fight for the health, education and financial stability of every person in our communities*.

We are so proud of the work we help support —work that is crucial to the health and stability of our families, children and neighbors. We truly believe that giving through United Way is an “Investment for All,” because improving the lives of one family or one child, leads to a stronger community for us all. And each year, we evaluate our community support to ensure we are allocating funds in the most impactful ways possible—to organizations that work on providing health-related services to our families, to programs that focus on providing quality educational opportunities to our youth, and projects that address creating financial stability for our neighbors.

We will continue to fight for our communities and we hope you’ll continue to join us. When we LIVE UNITED by working together and supporting one another, we can build stronger communities where everyone thrives.

With sincerest thanks,

Megan
